

“Con-Tech is happy to partner with CIM to support our great industry! Thank you to all our loyal customers which makes this donation possible. Let’s get ready to bid it up and support our young people in the concrete industry.”

– Dan Welsh, President, Con-Tech Manufacturing

“We are pleased to have this outstanding donation from Con-Tech Manufacturing,” said Ben Robuck, CIM Auction Committee Chair. “This mixer will go a long way to help us achieve our fundraising goal. We are proud to have Con-Tech included in our list of major CIM auction donors and, with this donation, we have the potential for our greatest auction ever.”

– Ben Robuck, Chairman, CIM Auction Committee

CON-TECH MANUFACTURING, INC. DONATES EXTREME DUTY 10.5 YD HIGH PERFORMANCE MIXER TO ANNUAL AUCTION AT WORLD OF CONCRETE

Con-Tech Manufacturing, Inc. has donated an Extreme Duty 10.5 yard High Performance mixer for the annual CIM Auction at World of Concrete. **Item includes mixer only. Truck chassis not included.**

The Extreme Duty 10.5-yard set back mixer is equipped as follows:

Drum:

- 1/4 AR steel drum shell with 1/4" AR 200 formed head with AR reinforcing plate and head fin reinforcing plates
- Single bolt-on access hatch
- 1/4 fins with 5/16 AR mixing fins, AR steel doubled fin lip
- Machined, solid roller track adds superior strength; eliminates cracked tracks and welds
- 46-inch discharge opening with bolt-on anti-surge fins

Drive:

- High performance PMP planetary drive with peak torque rating of 52,000 ft/lbs.
- Backed by PMP 5 year/8,000 hour limited warranty

Hydrostatic Drive:

- Eaton RE heavy duty 54 series variable displacement pump with manual override
- Eaton heavy duty motor with 10 micron filter
- Limited 5-year warranty
- 13-gallon oil reservoir provides greater heat rejection and better thermal protection

Rollers:

- Premium American made, adjustable, induction hardened special alloy rollers
- Bearings provided with remote grease zirks for ease of maintenance and operator safety

Charge Hopper:

- Large, high-performance design, fast-charge HP wide charge hopper
- Reinforced for longer service life and hinged for use with the optional tip-up feature.

Ladder:

- Rear fold-down ladder with non-skid, self-cleaning ladder rungs and large side grip bars
- Large, non-skid work platform with safety hand guard rail at top

Chute Host:

- Double-acting (power up/ power down) 2.5-inch diameter chute lift cylinder to improve operator efficiency and cushion chute bounce during road travel.
- Con-Tech chute lift block uses Eaton valves with field proven environmentally sealed Deutsch connectors.

Chutes:

- Fully welded and capped main, fold over, and (3) 48" extension chutes come standard
- Main chute mounting uses solid thru shaft with larger bushings for improved wear life.

Water System:

- 125-gallon steel side mount water tank with high pressure relief valve
- Simplified, 2 position fill/exhaust, anodized aluminum control block, top fill flopper valve, sight gauge/gallon marker

- 1" rear water injection line and 25' wash down hose with pistol grip spray nozzle

Lighting & Electrical:

- Marker lights are sealed LED with 2 pin connector
- Upper clearance 3 LED lamp, light bar on charge hopper
- Standardized labeled wiring harness with sealed Deutsch connectors

Controls & Revolution Counter:

- In-cab control box with drum counter and drum rotation controls
- Rear mixer controls are cable with a one-piece cast aluminum control box and toggle switches

Fenders:

- 3-piece, reinforced tandem steel fender design with recessed, sealed LED lighting
- Heavy rubber mud flaps front and rear

Steel Prep & Painting:

- All mixer components are steel shot blasted, then primed with Axalta Coating Systems Zinc Enhanced 1000-plus hour salt spray tested, two-component polyurethane primer
- Mixers are finished with Axalta high solid content finish coat. All pedestals triple primer coated and painted before and after assembly.

Safety, Decals & Alarms:

- Back-up alarm, full LED lighting, remote roller greasing, safety cage, safety decals (dual language) for water, rollers, ladder, chutes and load, confined space.

CONCRETE INDUSTRY MANAGEMENT (CIM) AUCTION: CONCRETE FACTS

What is the CIM Program?

In early 1995, the concrete industry began efforts to create the first (and only) four-year degree program in Concrete Industry Management (CIM). The CIM Program is designed to combat the anticipated shortage of skilled managers needed to support the expected growth in the concrete industry. The program teaches students the skills and techniques needed to excel in all segments of the concrete and concrete construction industries. CIM also offers a unique Executive Master of Business Administration (MBA) degree in CIM. The program is designed to expand the industry-academic partnership by bringing CIM to the business world through an Executive-type MBA.

What is the CIM Auction?

The CIM Auction consists of a live and silent auction, hosted by the CIM National Steering Committee (NSC), concrete industry-related items, as well as other items, will be auctioned off to the highest bidder.

Who does the auction benefit?

All proceeds from the auction will benefit the efforts of the CIM NSC in support of the CIM Programs at Middle Tennessee State University, New Jersey Institute of Technology, California State University – Chico, Texas State University and South Dakota State University. Long-term, the CIM Auction will provide on-going support for the operation of world-class academic programs in CIM, as well as leverage government funds for research and educational initiatives that will benefit the entire concrete industry.

Why should I get involved?

The success of the auction, as well as the CIM Program as a whole, depends on the time and commitment of the entire industry. Investing in the CIM Program is an opportunity for the entire concrete industry to unite in an effort that will provide long-lasting benefits while increasing the professionalism and image of the industry. In addition, with your involvement in the auction, your organization will gain exposure to thousands of companies in the concrete industry. Each and every segment of the concrete industry, from sales management and marketing to manufacturing and production, will benefit from skilled professionals entering the workforce. For more information, contact CIM Auction Committee Chairman Ben Robuck at ben.robuck@cemex.com or 404-456-6867.
