

CIM ASSOCIATION PARTNERS:

WE NEED YOUR HELP TO PROMOTE
THE 2024 CIM AUCTION AT
WORLD OF CONCRETE

BUILDING FOR THE FUTURE

The Concrete Industry Management (CIM) Program, the only one of its kind, was developed to address the anticipated shortage of skilled managers in the concrete industry. CIM, which includes four-year and MBA programs, prepares students to excel in all segments of the concrete and concrete construction industries.

The CIM program has been able to continue its outstanding work thanks, in major part, to its annual fundraising auction at World of Concrete. These funds support the current CIM programs, allow for expansion to other universities and fund scholarships—all of which benefit the entire concrete industry. **The future of the concrete industry is in our hands.** The support from so many of you in the past has helped make the auction a huge success. For CIM to continue its great work, we need your continued support. You can help by participating in both the live and silent events on **Jan. 24, 2024** and by spreading the word. Together, we can champion a great cause and make this the best auction ever!
