For online bidding options, please visit
www.concretedegree.com/auction.

"Mack Trucks is once again proud to be able to support the Concrete Industry Management (CIM) auction this year with the donation of a 2024 Mack Granite mixer model. The complexity of the concrete industry requires a skilled workforce adept at responding to the rapidly changing technology and future. We are excited to be able to help the next generation of concrete industry leaders be prepared for their careers."

**Tim Wrinkle, Senior Product Manager
for Vocational and Medium-Duty Vehicles, Mack Trucks**

"We are incredibly proud to continue our legacy of support for the Concrete Industry Management (CIM) program again this year under our new Revolution name as we have since the beginning. The dollars raised will help support and inspire future industry leaders."

**Bob Monchamp, President of Revolution
Concrete Mixers and London Machinery**

"Investing in the next generation is crucial for the growth and success of our industry, and we are honored to be a part of this important work. We encourage everyone to support the CIM program by bidding in the auction."

**Bryan Datema, Executive Vice President,
Revolution Concrete Mixers and London Machinery**

Meets the requirements in the following states: Alaska, Arizona, Arkansas, California, Colorado, Hawaii, Idaho, Illinois, Iowa, Kansas, Louisiana, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, South Carolina, South Dakota, Tennessee, Texas, Virginia, Washington and Wyoming.

Check local road restrictions for requirements.

Space for pusher axles is available on this configuration for additional gross vehicle weight.

CONCRETE INDUSTRY MANAGEMENT (CIM) AUCTION: **CONCRETE FACTS**

What is the CIM Program?

In early 1995, the concrete industry began efforts to create the first (and only) four-year degree program in Concrete Industry Management (CIM). The CIM Program is designed to combat the anticipated shortage of skilled managers needed to support the expected growth in the concrete industry. The program teaches students the skills and techniques needed to excel in all segments of the concrete and concrete construction industries. CIM also offers a unique Executive Master of Business Administration (MBA) degree in CIM. The program is designed to expand the industry-academic partnership by bringing CIM to the business world through an Executive-type MBA.

What is the CIM Auction?

The CIM Auction consists of a live and silent auction, hosted by the CIM National Steering Committee (NSC), concrete industry-related items, as well as other items, will be auctioned off to the highest bidder.

Who does the auction benefit?

All proceeds from the auction will benefit the efforts of the CIM NSC and support of the CIM Programs at Middle Tennessee State University, New Jersey Institute of Technology, California State University – Chico, Texas State University and South Dakota State University. Long-term, the CIM Auction will provide on-going support for the operation of world-class academic programs in CIM, as well as leverage government funds for research and educational initiatives that will benefit the entire concrete industry.

Why should I get involved?

The success of the auction, as well as the CIM Program as a whole, depends on the time and commitment of the entire industry. Investing in the CIM Program is an opportunity for the entire concrete industry to unite in an effort that will provide long-lasting benefits while increasing the professionalism and image of the industry. In addition, with your involvement in the auction, your organization will gain exposure to thousands of companies in the concrete industry. Each and every segment of the concrete industry, from sales management and marketing to manufacturing and production, will benefit from skilled professionals entering the workforce.
